Bull's eye analysis

Work in groups. Draw a bull's-eye diagram like the one below or use this worksheet. As a group spend about 5-10 minutes discussing a poem or song. In relation to the poem or song, discuss which word you think is the single most import word and place it in the middle of your diagram. Decide which three words are the second most important and place these in the middle ring. Which six words would you classify as the third most important words in the poem or song? Place these in the outer ring. Share your answers with other groups and discuss why you have ranked these words in the way that you have ranked them. What determines the 'importance' of a word in a poem or song?

1. _____

2. _____
2. _____
2. _____

3. _____
3. _____
3. _____
3. _____
